

At Mama Go's Filipino Cuisine, we are committed to minimizing our environmental impact and contributing positively to the community. We recognize the importance of protecting the environment for future generations and are dedicated to implementing sustainable practices in our operations.

1. Conservation and Recycling:

We will actively promote energy and water conservation throughout our restaurant. Additionally, we will strive to reduce, reuse, and recycle materials whenever possible. This includes composting organic waste, recycling paper, plastic, and glass, and using eco-friendly packaging materials.

2. Sustainable Sourcing:

We are committed to sourcing local, seasonal, and organic ingredients whenever feasible. We will work closely with suppliers who share our commitment to environmental responsibility, supporting the local economy and reducing the carbon footprint associated with transportation.

3. Energy Efficiency:

We will invest in energy-efficient appliances and lighting systems to reduce our energy consumption. Regular maintenance and upgrades will be conducted to ensure our equipment operates at peak efficiency, minimizing energy waste.

4. Waste Reduction:

We will implement measures to minimize food and packaging waste. Portion control, menu planning, and donation of excess food to local charities will be part of our waste reduction strategy. We will also encourage our customers to participate in our efforts by providing clearly labeled waste disposal options.

5. Staff Training and Engagement:

We will provide training and raise awareness among our staff about the importance of environmental conservation. Encouraging employees to suggest and participate in eco-friendly initiatives will be a core part of our company culture.

6. Continuous Improvement:

We will regularly monitor and assess our environmental performance. Through continuous improvement, we aim to set and achieve meaningful goals that reduce our environmental impact and make a positive difference in the world.

By implementing these practices and involving our staff and community, Mama Go's Filipino Cuisine is dedicated to being an environmentally responsible restaurant. Together, we can create a sustainable future for all.
